Blarbuie Woodland Project

at the Argyll and Bute Hospital

Blarbuie Woodland Project is a partnership between community groups, voluntary organisations and hospital & health staff. It is working to create a resource based on the beautiful woods around the hospital, benefiting all who use the hospital and everyone in the wider community. There will be a range of access and recreation opportunities, environmental enhancement and education, and training in woodland management and woodcraft.

Published by Woods for All, part of Reforesting Scotland on behalf of Blarbuie Woodland Project.
Reforesting Scotland is a registered Scottish charity, SC018032
